ZOEDONE

ZOEDONE
THE NEW DRINK
A restoring & stimulating but non-alcoholic
BEVERAGE

Letter from Dr Lucas, Bombay, Medical Dept. Author of the Elements of Indian Hygiene etc.
"I am of opinion that your invaluable aerated beverage Zoedone deserves the highest attention at the hands of the Indian public. It is not only a health giving drink but essentially, containing as it does the quadruple phosphates of Iron, Lime, Potash, and Soda, a health restoring drink par excellence, reviving and refreshing the vital powers. It would be a blessing indeed if we could see it introduced into hotels, restaurants, regimental messes and canteens. To weakly females in India it would decidedly tend not only to the amelioration of their own health, but that of their offspring, the future generations of men and women. I need scarcely allude to its indication as a remedial and dietetic agent in cases of malarial cachexy, phithis etc."

Letter from Geo. S. A. Ranking, M.A. M.D., Cantabe Surgeon, Indian Medical Department.
"I am of opinion that in Zoedone is to be found a complete solution of the problem which has long exercised the minds of the Medical profession in India, viz., the discovery of a beverage which shall assuage thirst, restore nervous waste, and while being palatable, be also non-alcoholic. It is my firm conviction that if Zoedone be introduced into India it will meet the requirements of those who wish to restore their nervous system without impairing their liver."

Good News for Sheep Farmers

The well-known Veterinary Surgeon
Mr Robert Hall, M.R.C.V.S
Inventor and Sole Manufacturer of the popular
HALL'S SHEEP DIP
Having determined to introduce this valuable Composition into general use in the Argentine Republic, has appointed Messrs Barnett & Co. his Agents for the River Plate.
This Dip is preferred to all others in Australia and New Zealand, where it has successfully stood a competitive trial for many years. The Inventor claims for this Dip the following advantages—
1st—It is instantly and completely soluble in either warm or cold water.
2nd—It is non poisonous in its effects on Wool or Sheep, and healing to all Sores on the Skin.
3rd—It is a certain preventive, and perfect cure for SCAB.
4th—It most effectually destroys Red Lice, Sheep Ticks, Maggots and every other kind of Parasite found on Sheep and Cattle.
5th—It is acknowledged by all who have used it, to be the best composition known for improving the quality and promoting the growth of the Wool.
6th—The Dip is invaluable for protecting the Sheep from the attacks of Flies and Maggots.
This Dip has been imported into this country by some large Sheepfarmers already, and used in preference to any other, for some years back; but it is only lately an Agent has been appointed.

Important
This Dip is guaranteed to be manufactured only by the Inventor in England, and is of course very superior to the many Dips made in this country.

This celebrated brand of Kerosene, manufactured by the Chesebrough Manufacturing Co. (the manufacturers of Vaseline) is without doubt the best in this market. It is perfectly pure, gives a brilliant light and is absolutely free from the disagreeable odour most kerosene has.

Official telegrams from Rome say that General Cialdini, Italian Ambassador in Paris has irrevocably resigned, and his resignation will most probably be accepted.

THE MINES.

Who ever reads papers from the Interior? In every province two or more newspapers are published, yet, we suspect, it is an admitted fact that the public of Buenos Ayres reads more, in the papers of this city, of what is going on in Paris and London than in the upper provinces; occasionally there is a break in the silence of the Interior, and a couple of 'hechos locales' acquaint the reading public here of the new sugar crop, or the silver freights on the Central Argentine Railway, or the 'tercios' of copper and bar silver that come down in Lamport and Holt's steamers from Rosario. A political 'flare up' or some electioneering squabble gives, perhaps, momentary prominence to one or other province, but, beyond these sickly efforts by our colleagues at provincial news, there is not a spark of intelligence to be gleaned from districts the richest in the Plate, and from provinces in whose womb are locked fortunes that, ere five years more are about, will be developed by men that, perhaps, to-day have never heard of this country.

One of the best signs for the Interior, according to our reading of River Plate events, is the enlargement of the *Nacion* newspaper, since it will afford increased space to the talented editor of that journal for news from the Interior; and if our provincial colleagues fail to publish any items of interest, doubtless, the *Nacion*, in view of its increased size, will follow the example of the *Standard* and secure the services of a good provincial correspondent who will keep the public of Buenos Ayres properly informed of what transpires north of the Arroyo del Medio.

The newspapers that come to hand now from the Interior not only reflect an improved state of things in the provinces but also improved editorial ability; but there is still wide room for improvement in most of our provincial colleagues. Certainly, within the last six months, the tone, style, and stuff of these newspapers is better; their columns are no longer filled with Government decrees and municipal accounts o fines and taxes; neither are their editorials wretched political lampoons, as in the days that are now over; and we appeal to our up-country writers to give us more news about the price of lands, the cost of production, the value of haciendas and, above all, something about the mines.

President Roca's visit to the Mint, last week, has a far greater significance for affairs in the Plate than is generally supposed. At great expense a National Mint was built and organised in this city by the genius and ability of Dr. Plaza, ex-Minister of Hacienda. Before the foundation was laid, we heard the greatest things about the future of this magnificent establishment, and when the roof was on one of the walls came down, which provoked the gloomiest forebodings. Difficulty upon difficulty was removed: all the costly machinery from Europe was set up and everything declared in order, when the whole concern was snagged by a split in Congress on the Coinage Bill. We are on the eve now of the removal of this difficulty, and before another month rolls over the Master of the Mint will be looking for precious metals to coin as fast as his machines will turn them out—gold Argentines and silver dollars—and this brings us to our text. Are the provinces able to supply the Mint with a sufficiency of the precious metals to keep its machinery going? Some very sagacious Englisumen in this market say 'yes,' and it may interest a few to know that, on bidding goodbye to an English miner but two days ago, his farewell words on leaving for the provinces were—'that in two years he would be master of the situation in this country.' And we confess to an enthusiasm which persuades us there is something in his prediction.

The mining industry of the Republic is as yet in its infancy, and it is every way probable that now that we are to get rid of 'curso forsoso' and return to specie payments, our new Mint will awaken the mining interests of the country to a new life, and some new Mr. Mackay will spring to the front and, waving his flag on the hill tops of Rioja and Jujuy, announce a new Bonanza that, in the inscrutable working of human affairs, will change the face of things in this country as much, perhaps, as did the revolution of last year.

We invite, therefore, all our provincial colleagues to study English and exchange with us: we promise, on our part, to publish all the news that they give us concerning their industrial resources, and to leave no effort untried to attract the attention of those great European capitalists who, if they only knew as much of the Famatina Mines as we do, would purchase the whole country to-morrow.

PRESIDENT GARFIELD.

The River Plate public was startled yesterday with the rather melancholy news embraced in the Havas telegram at foot, and which we received on Sunday night. With almost fatal punctuality the message arrived to envelope in gloom the great American National day, the 4th July, and, as a matter of course, General Osborn, the esteemed American Minister, received no one yesterday, although hundreds called at his residence. Mesdames Rogers and C. S. Bowers sent to the Legation two magnificent bouquets with the Stars and Stripes and shield of the Union beautifully worked in flowers. Madame Bagley presented the Minister with biscuits &c., but there was no reception, and hence no spread.

President Garfield, it is thought, was attacked by some lunatic, but as yet we have no details. The wound in the kidneys, it is feared, will prove fatal, President Garfield is but 49 years of age and in the full vigour of life; he married young and has a large family and grown up sons. In case the wounds prove fatal, he will be succeeded by Gen. Arthur, a New York man of good standing and wealthy; he is of the same politics, is 45 years of age, and much esteemed by all who know him. At any moment we expect fresh telegrams with further details:—

New York 2nd (Evening.)

President Garfield has just been the victim of an attack by a man armed with a revolver, who wounded him in the arm and also put a bullet through his kidneys. The latter wound is most serious. The crime has nothing political in its but is the result of personal animosity. The assassin was captured in the act.

THE MINT.

The visit which H.E. the President of the Republic paid to the Argentine Mint on Friday has revived the public interest in that establishment and the prospect of soon seeing gold 'Argentinos' amongst our currency. Few public establishments have had to struggle into existence in face of more adverse criticism than this first Argentine Mint, and it is most satisfactory to be able to report that it is at last 'an accomplished fact.'

President Roca was accompanied by the National Minister of Finance, Dr Romero, Dr Pacheco, Chairman of the National Bank, and Mr White, Director of the National Engineers Department. The distinguished party were escorted through the building by Sr Castilla, who planned it. After a minute inspection of every department, the unanimous verdict was that the work has been splendidly done both on the building itself and the erection of the machinery, which is of the most modern and perfect of its kind that Europe produces. The dies, moulds etc. for the different coins attracted much attention, and Sr Castilla and Mr White were deservedly complimented by all present.

This fine building, which is well worth a visit, is really a credit to the country, and so much can hardly be said for several other edifices which we could name, although they cost the unfortunate tax-payers treble, quadruple, and even ten times what this Mint has, the total expenditure on it, with machinery and all the apparatus in its place being only 180,000 pats, a very moderate sum for such a fine building. The machinery was all set going while the President was in the building, and the Director told H.E. that he was ready at all points to commence coining, as soon as he received the order.

The question now is for the Government when such order shall be given, and we believe it will not be till the Currency Law, which is now being prepared for Congress, is presented to it. This question of Currency is the most vital one for the country, especially for the Interior, where there is such a frightful jumble, and we trust the Bill will also include a radical reform in our Banking system. It is rumoured that the Currency Bill will provide that the National Bank notes shall be the only ones current in the Interior, a proviso that would add 50 per cent to the value of the shares of that Bank. Be this as it may, the country is to be congratulated on at last having a Mint of its own, and Congress is bound not to delay the Law which will give the Republic the full benefit to be derived from it.

COLON THEATRE.

The 'Hugonotes' was given on Friday to a house crowded from roof to ceiling, and there is no doubt that as a musical composition it is the finest opera we have seen here this season. In fact, it is much too fine for the 'artistes de seconde ordre,' for, with the exception of the 'prima donna,' Tamagno, Batistini (the most accomplished artist in the company) and Visconti, the others left, indeed, very much to be desired; in fact, they are over-weighted and by no means equal to the task; therefore, it is far preferable to see any other opera, when all the artists can properly fulfil their 'roles,' than one where only one-half of them are competent.

The 'Huguenotes' is an immeuse success for Mr. Ferrari, but not for the 'dillitanti.'

The 'Ballet' was superb, though some whispered that the girls' petticoats were rather short, by no means an objection: people with such prudish notions, which belong to the last century, should stop away if they do not wish to be shocked.

We are to have the new opera of 'Boitou,' and I learn from those who have attended the rehearsals that the music is remarkably beautiful.

SAUCE CORTO.

The English settlers at Sauce Corto will read the following telegrams with pleasure, as they show how anxious the National Government is to give them every security. We beg of them to keep us constantly informed as to what is going on in their district, so that we may also do what we can for them:—

Julian Belloso
to
E. T. Mulhall.

Sauce Corto, July 1st.

Please advise President and War Minister that in the Montes de Salinas the marauders who invaded last month are hiding, and to send troops to clear them out.

Official—Urgent.
to
The Minister of War,
Carhue, July 2d.

I have received Y.E. telegram this moment, ordering me to send 120 men to Lihue-Calel, as there is an alert there. I had arranged, as I told Y.E., to send three columns, as soon as I got all the horses, thinking this the best way to secure complete success, but as Y.E. orders me to send a detachment, it shall march to-morrow morning from Puan, and I will follow with the rest when I have sufficient horses for the whole force. Since the first notice, I have taken all the steps the case demands, and Y.E. may rest assured that we will act energetically.

C. Villar,
Frontier Commander.

LATEST FROM SCOTLAND.

Edinburgh, May 24, 1881.

My dear Mulhall,

We had a favourable voyage in the Douro, arriving at Southampton on the 6th inst, in 26 days from Buenos Ayres. It has been the worst winter for health in the memory of man in England, and the persistent east wind shading into the north-east trades met us in the tropics, necessitating changing of flannels and a topcoat in lat 10 deg., the latter, in my own case, before arriving at the Cape de Verdes! Notwithstanding, I was down with bronchitis before leaving the latitude of Africa: Sr. Moreno was down three times, Sr. Piñeiro once, and Mr. Leighton and several others colded: Mr. Drysdale, Mr. Casey Mr. Forrester and Mr. Graham escaped. After arriving here I was down again with bronchitis cold: my brother has been in bed nearly three months from the same, and it took away a dear sister in seven days.

The weather is now fine—after a winter which lasted, they say, from the 25th of October till the 4th inst., the day before we landed! There is no place like Buenos Aires.

Faithfully yours,
Subscriber.

THE LAND AUCTION

The following important letter from the Governor of Santiago del Estero will be read with interest:—

Santiago, June 20th 1881

To Don Nicolas Canepa.

My dear Sir

I have the pleasure to reply to your two telegrams informing me that the Governments of S. Fe and Cordoba have respectively protested against the sale of land sold to you by this Government in 1872, and you recommend a counter-protest from my Government, which I do not consider advisable.

The Santiago Government believes, with good reason, that it was the owner of the lands sold to you, as they are, according to the express terms of the Provincial Constitution, within the jurisdiction of Santiago. It had the authorization of the Legislature to sell them, in the form of an Act, and in other public ways known to all, nor was there any protest or opposition offerred to the sale within a fitting time.

Besides, you had your lands surveyed some years ago, and took legal possession, thus guaranteeing your title in every legal way possible.

The Santiago Government cannot prevent those of Cordoba and Santa Fe from publishing protests, nor can it see the least use in protesting in its turn. Such protests cannot affect the right we had to sell the lands, or yours to buy them; should either of those Governments take legal action in reference to your property, this Government will take the necessary steps to protect your rights.

Therefore I think it unnecessary to protest, as your alarm is unfounded, since no one challenges your title to the lands; but, should cause arise for them, I will, as I have already told you, take such steps as I am bound to do in the matter.

Most truly Yours
P. Gallo

EDITOR'S TABLE.

The terrible news from New York, of President Garfield being seriously wounded by an assassin, spread gloom in all circles yesterday, especially amongst citizens of the United States, and marred the festivities in connection with the celebration of the Independence Anniversary of the greatest of Republics. General Osborn's held no reception. There are as yet no more details of this detestable crime than the meagre ones given by Havas in another column.

Nothing new from Montevideo. The Nationalist (whatever this word may mean) party have issued a manifesto stating that they dont intend to vote at the next election. (What a pity!) Latorre seems to be forgotten in the sister city for the moment.

Sunday was a pet day, and trams and trains did a good business. At Santo Domingo Church there was a special service but the congregation was nothing extraordinary.

The recent frosty weather, we are glad to hear, did no injury in the camp, and few, if any, lambs have been lost anywhere. There is, therefore, an enormous increase in the flocks, and the larger clip next season will compensate farmers for the drop in gold,

Mr Tom Shiel, the popular 'confitero' in Calle Piedad, announces in our advertizement column that he has received some especially fine Jamaica Rum, which his numerous customers will, no doubt, feel bound to 'probar' and pronounce upon. Rum is a safer drink in this country than either brandy or gin, which are such great favourites as 'pick-me-ups' in this good city, and often act as 'knock-me-downs'. Good rum never plays its friends false in this way.

The *Patria Argentina* says that a new private bank of three partners is about to be opened in the old premises of Maua and Co., in Calle Cangallo.

The Montevidean papers relate that, one day last week, while the company of the San Felipe Theatre were at rehearsal, a well-dressed man entered the pit, knelt down, with his face to the stage, and commenced to pray most devoutly. The actors did not know what to make of it, but one of them (Sr Reig) saw how the ground lay and delivered an oration on the Immortality of the Soul which Plato himself would have 'encored'. The visitor listened with marked attention and then slowly rose and left the theatre. Our colleagues on the other side are full of conjectures as to the case, although to ordinary minds the verdict of 'mad as a hatter' at once suggests itself.

The Lottery business seems rather lively just now. At Montevideo, on the 9th, 50,000 pats. will be the big prize, and at Rosario, on the 8th, $400,000 m|c. According to the papers, Buenos Ayres wins by far the lion's share (after the 'empresas of course) in all this blind tempting of Dame Fortune.

There was very severe frost all over the Banda Oriental last week, which cannot have done the flocks, or the herds much good, as they are as thin as walking sticks, owing to want of grass.

The Asuncion papers report great numbers of cows and horses being imported into Paraguay from Corrientes. There was a grand affair on board H.M. gunboat Dwarf (Duvarf our native colleagues persist in calling her). President Caballero, his Ministers and a large party visited her, and, as they approached, the yards were manned. Captain Bainbridge received the President and party at the gangway, while arms were presented and all the usual honours to a ruler paid. H.E. then visited every part of the vessel, after which he went on the quarter deck to see the 'first luff' put the crew through gun drill. The President opened his eyes wide when he saw the tars handle the huge 150-pounders as if they were toys: the cutlass drill also astonished him. Then Champagne and Tawney Port were served, and, after a couple of bumpers, the President left for shore, the Marines presenting arms, and the crew manning the yards, giving such a rousing British hurrah, as the gig shoved off, that H. E. fairly leaped from his seat, as he had never heard a genuine English cheer before; he courteously raised his hat in response.

Baltar & Quesada will rule the roast in the land way to-morrow, with their sale of the Caneppa lands in Santiago. Thank goodness the time has passed when auctioneers had the face to ask people to buy lands or lumber, first class sheep or second hand sofas, prize rams or old rattletraps, pigs or pictures, on an empty stomach. The best lunch the Aguila Confiteria can supply will be offered to Messrs B. & Q.'s bidders to-morrow. Parry's Chambertin never yet failed to make a man say more than he intended, bid be for land or for wife. When 'man proposes,' he should take care to have first lunched. Tickets for the lunch to-morrow can be had on application to the auctioneers.

The Club Democratico Español gave a grand literary and musical entertainment on on Sunday, in aid of the Asilo Romero Ximenes, and to honour the memory of Calderon de la Barca. We were unable to attend, but it must have been a treat.

Mdlle. Borghi-Mamo will take her benefit on Thursday night in the 'Huguenotes' In an interlude she will sing that delicious gem 'Una voce poco fa,' from the 'Barber.' The Colon artists perform to-night at the Opera House.

The English manufacturers of agricultural machinery have cause to be satisfied with the position they attained at the Melbourne Exhibition. From the list of Awards already published, they appear to have come out better than either the American or Colonial makers. At the Sydney Exhibition, Messrs. Howard, of Bedford, took first place for ploughs, harrows and other tillage implements, whilst at Melbourne they received the largest number of first prizes awarded to any exhibitor for tillage and harvesting implements and machines. Messrs. Howard's implements are well known and enjoy a high reputation with River Plate farmers.

The North wind yesterday made everybody rather glum and cross; even new subscribers were affected by it and did not pay sufficiently in advance. After the East wind in England, the North wind in Buenos Ayres is the most unpleasant we know of.

The report of the house surgeon of the British Hospital for June shows 40 patients on the 1st, 22 entered, 28 discharged, no deaths, and 34 in house on July 1st.

Mr Frederic Luer, manager of the Camille Urso Concerts, is now preparing for the campaign of his fair and talented principal, who is acknowledged as the greatest lady violinist of the day. In Rio she created a 'furore' and is pretty certain to do the same here.

The Tucuman papers say that mad dogs, dead dogs and live and lively cats are the special nuisances of that city just at present. The trade with Bolivia is increasing so fast that the 'troperos' and 'arrieros' are making enormous fortunes, 'Aguardiente' is the article most in demand by our Bolivian neighbours. The cultivation of rice in Tucuman is showing a great development.

The *Progreso* of Cordoba says that mining is brightening up in that province, and it announces the purchase from Messrs Fragueiro & Co, of a valuable mine by some English capitalists. The price is £50,000, a very fair beginning. The Interior is fairly bursting with mineral wealth, and we'll bet a hat, before five years are about the shares of half a dozen Argentine mines will be quoted on the Bolsa.

The *Capital* says that Rosario is now crowded with Venado Tuerto men, who are preparing to stock and begin business on the estancias they bought from Mr. Casey some months ago. May *Standard* luck attend them. Venado Tuerto has one of the most cherished nooks in our memory.

An advertizement in reference to Mr. William Martin's lecture on the Passion Play, on Friday next, will be found in another column. It will be one of the most interesting lectures delivered in Buenos Ayres for a long time. Everybody intends going, as the 'entrada' is a mere bagatelle,

We hear of 60,000 hard pats. as being about to be invested in an estancia not far from Rosario de Santa Fe. 'Tout le monde' is turning cattle-farmer.

There are now no fewer than 500 navvies at work on the extension of the Western Railway to Pergamino. Good news for our friends in the North-West.

Patacons	26.15
Cedulas A	98½
National Bank Shares..	96

The week has opened with the melancholy news from the United States of the attempted assassination of President Garfield, and although so far removed, the public here takes a great interest in American affairs. The Havas telegram last night was the absorbing topic on 'Change, but no fresh advices had come, and we give in another column all that was known up to a late hour on the matter.

Gold opened at 26.10 cash and closed at 26.15, cash sales, 34,900 pats. It was generally said that the firmness in gold is due to the outside demand for coupon money. The only business of importance worth talking of was for the end of the month, 645,000 pats sold, opening at 25.95, rising to 26, and closing at 25.95. For August, September and October a few sales at 25.85, but the fact is gold has no future, and the ring well knows this.

Cedulas, due to the excellent and well timed remarks of the *Republica*, ruled better, and the bears have stopped selling. It is estimated that close on a million patacons are sold short for the end of the month. The stock looks as on the eve of a great speculation, and it is most likely that the business of the ring will settle in this stock; prices cash 98½, and for end of month at 97⅞, closing afterwards at 98¼, and for August at 97⅞.

National Bank Shares begin the week with suspicious calmness; prices for cash dropped from 96½ to 96, and for end of month opened at 97, dropped to 96½ and closed at 96¾, for August at 97¼. The notice in the *Republica* about the dividend being payable on Sept. 1st settles the doubt about sales made for August 31st. All such sales are as a matter of course with the dividend for the buyer.

Exchange was done this morning at 42⅜, and it is probable that for this mail a good sum will be passed.

The news to-day from London is that Messrs Norton Rose & Co. for Messrs Thomson Bonar & Co. Mr Brassey and Mr Wythes are the purchasers of the Clark Transandine Railway concession.

Messrs Baltar & Quesada's auction of prize stock at Mr Quirno's cabaña Moron proved a most brilliant success; everything sold; the horses from $4 to 5,000 each, the sire $22,000, a bull 30,000, and a 'rodeo' of 60 pure cows at 5,400 m|c each.

There was no reception at the American Minister's to-day, although crowds called to pay their respects.

To-morrow the Senate discusses the Uriburu project, and in Congress to-day the Romero project was under debate. The week will probably prove an eventful one in the way of Parliamentary news, as it is the opinion of all that this week Governor Rocha will promulgate the 20 million consolidation law.

We heard on 'Change that the report of the Committee on the Fair Dock scheme sent into Congress has been withdrawn, as it is still subject to some new alterations.

On last Saturday a most important Cabinet meeting was held respecting the City Improvement Works; the finale of this business will, we believe, be that the Government continue the works by its own engineers and under Mr Bateman's supervision. The new currency bill is now the topic in the Government House and will at once be taken up, as it is felt the matter has remained too long in abeyance.

The news to-day from Europe about wool and hides is said to be a little better.

Forty more Welsh colonist's families have arrived and will be at once forwarded to Chubut. The Parana sailed yesterday with the other colonists; soon there will be no more room at Chubut, and the Minister wants to found a colony on the Rio Negro.

The sales at the ring were—
For cash 34,900 26.10-15
For July 5th 11,700 26.10-15
For July 15th 40,000 26.-26.05
For July 31st 645,000 25.95-26.-25.95
For August 31st 125,000 25.85
For Sept. 30th 60,000 25.80-85-80
For Oct. 31st 10,000 25.85
Sales, 916,600.

Cedulas—
For cash A 56,200 98½
For July 31st A 65,000 at 97⅞-98-98½
For Aug. 31st A 10,000 97⅞
Sales, 131,200.

Nat. Bank Shares—
For cash 740 shares at 96½-½-½-96
For July 31st 2,200 shares at 97-96⅝-⅝-⅝-¾
For Aug. 31st 1,200 shares 97⅛-⅝-¾
Sales, 4,140.

Prov. Treasury Notes—
For cash 212,000 at par.

The auction of the fine city property at the corner of Calles Piedad and San Martin, the Haedo property, amounted to nothing; the place was valued at 3,300,000 m|c, which is considered too high; not a single bid; although we heard on 'Change that some time ago an offer of 3,100,000 m|c was made for the premises.

Gold at after hours again turned and sellers were offering freely at 26.05 cash, and 25.90 for end of month, but very little business. Some sales for September at 25.75.

Cedulas grew firm spite of the great ring made to break them. One sale was made at after hours at 98¾ cash, and 20,000 for end of month at 98⅝. The stock looks rising and is dearer cash than on time, which shows that the bears cannot break the market. The slightest speculation in this stock will put prices up 5 per cent.

National Bank Shares are beared by the very men who are the largest holders, which shows that the object is to break prices in order to buy in strongly. It is hard to say with what success the effort will be attended, but speculators must ever remember that the stock is in a rising market and with a dividend soon maturing, about 1,000 shares sold at after hours from 96⅞ to 96¾ for end of month.

The Provincial Bank discounted to-day about 5 millions currency. We have not heard what the National Bank did.

Exchange was done this afternoon at 5.21 on Antwerp, 5.19 on Paris, and 49⅛ on London drawers.

One or two houses received to-day rather unfavorable telegrams for wool and hides, although in other quarters it was said the news from Europe about produce was good.

The Neva left Rio for the Plate yesterday; it may be remembered she is the steamer that broke the gold market, as they said she had 2500,000 on board, which we suspect is not so, still gold now is without a future.

A leading English merchant offered for sale to-day on 'Change 370 square leagues of land in one of the Provinces; we mention the matter to show what large holders of estancia lands some of our city merchants are; the property should be offered in London.

In the wool markets everything flat, 6 carts sent to deposit, and one lot 300 ar. sold at 80½.

Two cargoes of salt sold for Gualeguay—one at 8 ½ and the other at 8½ rls.

To-morrow Messrs. Bullrich & Co. sell the fine estancia at Ferrari—1200 squares, all wire fenced, and paying a large rent. We believe Mr. Temperley is the tenant.

We have received from Mr. Guimarens the report of the meeting of the Platino Telegraph Co., which we hold for to-morrow. We note the £10 shares are worth £6 in London.

The Sales at afterhours were—

Our special Boca correspondent reports the following:—

"Yesterday the National training ship Buque Escuela, and American steamer Isabel entered. The latter hails from Montevideo and brings a heavy general cargo for this port and Rosario. Her agents are Esteban Rirso & Co.

"The Liceo Iris, belonging to Mr Rufino Pastor, is being got up in the most gorgeous style.

"A first class Dramatic Company is "en tapis".

"The Amer. barques Ada Carter, and Norton Stover left to-day, as also steamers Mensagero and Colon."

The London papers give the following:—

"The report of the Montevideo Gas Company [Limited] to be presented to the ninth ordinary general meeting of shareholders, to be held at the Terminus Hotel, Cannon-street, London, E.C., on Friday next, states that the net revenue from the working of the company during the year, which ended Dec. 31st, 1880, amounted to £38,453. After making provision for bad and doubtful debts and law charges, and transferring £3,000 to contingency account, there remained a balance at the credit of profit and loss of £33,145, which was sufficient for a dividend at the rate of 6 per cent for the year. One half of this dividend was paid by the Board in February last."

The London papers publish the following—

"Buenos Aires Great Southern—Mr Editor. In consequence of what you stated in your paper of Saturday, 14th inst., with regard to the B. Aires Great Southern Railway, as to the probability of the Government exercising their powers of purchase, the ordinary stock has advanced about £10 in value, and the debentures have fallen an equal amount, apparently from a belief on the part of the public that the debenture stock would be paid off at par. Surely the debenture stock is as much part of the capital stock of the Company as the ordinary shares, as it naturally follows that if there was no debenture stock the common stock would be so much more. I feel rather sore upon the subject, as on the 11th instant I unfortunately purchased £1,000 debenture stock at 21 7/8 as a permanent investment, never dreaming that the Government of the country had the power of paying one off at par when it suited them. The great success of the railway and its very able management induced me to increase my holding, as I am an Original Debenture Holder of £1,300 stock. Cheltenham, 25th May, 1881."

The mails from Rio bring the following important advices:—

"Exchange—Our market has been inactive since our last report of 16th instant, in consequence of the limited supply of Commercial bills and the small demand for paper.

"On the 17th Banks opened freely at 21 3/4d per $ and private bills were passed at 22 1/16 and 22⅛.

"On the 18th rates were a trifle flatter, and Commercial bills found takers at 22d to fair extent, Banks refusing money at over 21 13/16d in the afternoon.

"On the 20th the Bank rate was 21½, but on the 21st they accepted money at 21 3/4, and Commercial bills have again been passed at 2 1/16 and 22⅛d.

"On Paris we quote 434 to 437 reis per franc for Bank, and 428 to 433 reis for Commercial bills.

"Money, Stocks and Shares—Discounts continue dull at:—

3-4 o/o	per ann.	for 30-60 days
4-5 o/o	"	3-4 months
6-7 o/o	"	4-8 "

Good commercial bills are very scarce and much enquired for. Bank bills in second hands were rediscounted at 3½ o/o per ann.

"Speculation continues at a very low ebb, and requirements of Money for Stock and Share settlements this month will prove much smaller than usual in June.

"Coffee has again improved in the U. States to 11½ cents and in Europe to 48s, but very heavy shipments are now on the way to Europe that will severely test those markets. Nearly 300,000 bags have been shipped from this city this month, against 105,000 in same period of last year.

The following late news about the Antwerp produce market, from Messrs Bunge & Co. of that city, under date June 2nd, 1881, is important:—

Wool—

We have nothing new to mention about this article, the market having undergone no change and the few transactions which took place have been effected merely to cover immediate wants.

Prices paid during our April auctions have so far been about maintained, which is principally owing to the good tone which prevails at the London sales. Prices there are interrupted from 1st to 7th inst. on account of the Whitsun holidays, and they will close on 18th instant.

The following is now our statistical position:—

There has been scarcely any demand for this article; prices, however, remain unchanged.

Stock, 837 bales.

Hides:—

The good demand, which we stated in our last issue, has continued; a decidedly better feeling having sprung up during the last few days, occasioned by rather important purchases made on our market for the U. States.

Prices have improved for all descriptions of salted hides, as well as for dry campos, as compared with the rates ruling at the beginning of last month. Several floating parcels have found buyers and still are asked for. The following have been sold to arrive:—

3,331 Rio Grande saladero ox, 55/62 lbs., at fs.67, and 954 Rio Grande saladero cow, 49/41 lbs., at 65 per Rover.

6,250 Rio Grande saladero ox, 69 lbs., at fs.71 to fs.72 for 25/32 and fs.67/68 for fs.20/25 per Dorothea.

All the hides of 32/40 kilos at fs.76 to come out of 2,2000 Paysandu ox hides, 68 lbs., discharying per Teniers, and out of 4,200 Paysandu ox hides, 67 lbs., expected per Vandyck.

In England too a better demand sprung up, and an active business is reported both on the spot and to arrive at advancing rates.

The floating sales, which have been effected on the English Coast, are the following:—

Olinda, 9,300 Liebig ox hides, 60⅝ lbs., on private terms.

Emulator, 6,100 Rio Grande saladero ox, 68 lbs., on private terms.

May Flower, 6,500 Rio Grande saladero ox, 68 lbs., on private terms.

2,000 Paysandu ox, 63 lbs., ex Vaillant, at 62d.

Killings in South America on 31st May amounted to 1,104,000 head against 1,440,000 head at the same time last year. The deficit of 336,000 head will probably not be recuperated during this season, which fact may possibly tend towards a further strengthening of the market.

Tallow—

Nothing to mention, still nothing being offered. Beef would be worth fs.89 and mutton fs.87.

Importantisimo, leer esto

La practica nos ha ensenado, como asi mismo las indicaciones de nuestra amistosa clientela, que no debe lanzarse a remate ninguna propiedad de cuya bondad de titulos no tenga la casa confianza y seguridad absoluta, por cuya razon hemos trabajado mas de dos meses hasta reunir toda la documentacion necesaria para presentar en venta esta zona importante de tierre, sin que los interesados tengan necesidad a pedir datos.

Hemos impreso un folleto, que contiene: 1º El plano de Santa Fe y su vecina Santiago del Estero. 2º El informe del Gobernador de la Provincia, declarando "ser propiedad de los Canepa el campo a venderse, acompañando copia legalizada de la ley que autorizo la venta y reconociendoles el derecho a su enagenacion. 3º Carta del Señor Obligado (que ha recorrido los campos durante anos) determinando su ubicacion, buena calidae, ventajas de su adquisicion, condiciones, etc, etc. 4º Planos del campo a venderse, con determinacion de lotes y la ubicacion de todas las importantes colonias con que se avecinan. 5º Nomina de los linderos y establecimientos importantes inmediatos. 6º Informe escrito del estudio hecho de todos los documentos y titulos por el acreditado escribano Sr. D. Victoriano Cabral, que los declara inmejorables: y finalmente todo lo pertinento al conocimiento de lo que debe adquirirse.

Este folleto, ass como las entradas para el lunch, se entregaran en nuestra casa a las personas que se dignen venir a solicitarlo.

Pormenores

Estos campos distan solo 5 leguas de las colonias Sunchales y Espin [suizo] y 7 o 10 de las estancias de Escalada, Ramayon, Coronel Obligado y hermano, Dr Pedro Palacios, Banco de Londres, Coronel Lacueva, Coronel Jabson. Lindan a mas con los Srs W Paste y Co, Dr Lawsen, Meyer, Ozeiza, Duchiwitz, Altgelt, Napp, Loissoau, Bonorme, Newton, Mulhall y otros, qué adquieren en la misma forma hacen diez anos.

La traza del ferro carril de Santa Fe a Santiago, cruza estos campos y se radicara una o dos estaciones en ellas.

Con la base fijada, no se habran puesto en venta campos mas baratos y si se habran adquirido jamas mejores como calidad, pues el Sr Coronel Obligado dice en su informe que son SUPERIORES a los del Sud de Cordoba y a los del Departamento del Rosario.

Hay campos linderos, que se han vendido (y mostraremos el certificado) a 3000 $fts. la legua.

En la colonia Espin, donde existen mas de 150 familias fundada por el Sr Benitez, se venden las concesiones a 200 $fts de solo 20 cuadras, luego la legua ha producido ya mil conzas de oro, en 80 concesiones.

Los campos estan mensurados judicialmente perfectamente amojonados con grandes postes de nandubay.

Hoy dia, la casa bancaria de los Srs Murrieta en Londres, esta recibiendo los campos del Chaco, del Gobierno de Santa Fe, en pago del emprestito a razon de 1500 $f. por legua, y estos son superiores y mas cerca de la capital.

Para terminar: la familia Canepa, es propietaria en el Rosario y esto redobla la garantia.

Por informes, folletos, planos etc, a nuestra casa San Martin 51.

May 23.

"Things without all remedy,
Should be without regard, what's
done is done."

Such is the opinion of France on the Tunisian affair. The journals now observe a Conrad silence, and have ceased scolding England, because it is feared Egypt may be soon protected by that power, and a treaty of commerce remains to be negotiated. Besides, vinegar never catches flies. The French have all chimed in approbation that seizing the whole of Tunis was the best plan to keep the Kroumirs in order for the future; alone the opposition bench in the Chamber of Deputies ndulged in a few giggles, when Minister Ferry laid on the table of the House the treaty signed with the free and independent Bey, adding, the proceeding was about the most glorious event of the Third Republic, a remark M. Rouher applied to Mexico and the Second Republic. The few important journals that France possesses have joined in the chorus of glory chanted on the occupation of Tunis. Sam Weller remarked, that it was expedient always to shout with the biggest crowd. Allowance too must be made for a peculiarity in the Gallic cock, which crows the same whether victorious or defeated. When a strong desires to absorb a weak power, excuses can be readily found, it is the lamb ever troubles the water. Napoleon I. asserted Holland was the alluvium of three French rivers, the Meuse, Scheldt, and the Rhine, and hence, he annexed the Nethe lands. Italy has only to remember that Tripoli once belonged to the Peninsula, and so 'protect' that outlying satrapoy of Turkey. Of course, the Third Republic has fallen in esteem by the taking of the Regency, after all protestations of single-mindedness and self-abnegation. Since England purchased Cyprus for a liberal sum from the unquestioned proprietor, without the pressure of overwhelming force, and two hours for acceptance, or refusal dethronement, the French have bombarded her with broadsides of reproaches; now France has been caught 'in flagrante delicto,' and simply laughs at the detection. Chamfort said, under Louis XVI there would be no gaiety in France without the acts of the Government. M. Gambetta has raised the laugh against the immaculate principles of the Republic, and converted friends into sceptics.

The present Chamber of Deputies has had its last field day in the debate on the Scrutin de Liste mode of electing representatives. Henceforth, when a department with 80,000 or 100,000 voters, will have to choose its ten members, instead of the electoral body being arbitrarily split up into sections to elect one or two of the ten candidates, the total electors will be called upon to scrutinize a list, containing any number of candidates, but from among which they must decide upon not more than the number, about ten, fixed by law. The return to the old plan will render bribery and corruption impossible; will do away with, consequently, the quashing of elections: will render representatives no longer dependent on parish wire-pullers, and will allow the republicans, or monarchists, to select the ablest men in their ranks for parliamentary honors. M. Gambetta identified himself with the return to the Scrutin de Liste; M. Grevy actively advocated the existing plan of fractional representation for each department. Gambetta by his eloquence won the day, hence, he is more than ever the Louis XIV. of France. M. Grevy is morally vanquished; he is merely a 'faineant' King; Gambetta is Mayor of the Palace. Of course the ministry sinks also to the second plan, but at best it is a quarry of no importance. It will remain in office till after the general elections in October, when Gambetta, with a new, a more advanced, and a more resolute Chamber at his heels, will become prime Minister, after a few months to become President of the Republic, as M. Grevy could not possibly exist in the deepest of political shades.

The debate was very short, because the subject was well-known, and men's minds made up; it was simply an affair of securing a score of votes, and on that the celebrity and political influence of Gambetta hung. Gambetta has delivered more connected addresses, but none where all the arts of seductive oratory had been employed; he had to deal with the varied motives which influence politicians, and with the terrible difficulty that if he triumphed, 200 members of the present House disappeared for ever from public life. And these 200 have been since four years devoting all their influence and wills to secure the favors of their little constituencies now swamped by the general departemental vote. It was against the 200 parochial pigmies that Gambetta had to struggle; yesterday they were something, to day nothing, for Othello's occupation is gone. The French Parliament has 200 mediocrities less; they fought obstinately till the close, demanded even the right of secret voting to crutch up cowardly consciences; but the majority of eight decided the day, which swelled to 76 on a secondary division, where the same principle was at stake. What can we think of the 68 renegades who doubtless congratulated Gambetta and assured him each of them belonged to the eight!

Gambetta took his seat in the body of the House, was dressed in a tightly buttoned frock-coat, which becomes him better than the official cod-fish tail that he has to wear as President; he was laughing and cracking jokes as usual, and after the second orator, demanded permission to address the House. He rolled, rather than walked, into the tribune, but the amazing talent of the speaker, his tact, dexterity, 'sang froid' and repartée, made you soon forget that he does not ambition to be a Versailles courtier. He spoke for an hour and a half; several passages were splendid pieces of eloquence, especially the peroration and the line from Juvenal that he applied to the 200—

Et propter, vitaem, vivendi perdere causas.

The discourse must have caused him great physical effort, as he had the look of a man quitting a bath on descending from the tribune: after receiving congratulations from hundreds of hands, his valet threw a top coat over his master, led him to a dressing room, where he made a new toilette after a short repose. The 200 melancholy Jacques, with rueful eyes, regarded Cæsar and grimaced a 'morituri te salutant.' It will not be the least part of Gambetta's crowning victory to have swept away at least 68 representatives who voted white one minute and black on the identical question the next. He may now go where glory waits him—at Cahors, his native town, that he had not seen since he left it when a youth to fortune and to fame unknown, to study law at Paris, with a third-class ticket in his pocket, assured of 100 francs a month's subsistence money, and aided by a friend, carrying between them his trunk to the usual attic house of a student of the Latin Quarter.

The Woman's right question has forced itself upon the Academy, that many irreverent people consider to be composed not of immortals, but of old women. An American lady, Mme. Batta, bequeathed the interest of 10,000 francs to be allocated every three years as prize for the best work on the 'Emancipation' of women: a section of the potent, grave and reverend seignors objected to the word 'emancipation,' as too advanced, and on a vote, changed it to 'condition.' In any case the fair sex have scored an inning.

Until within the last month, Paris had no city analyst; now citizens and sanitary inspectors have a chemical laboratory at their disposal, and where for a small fee, they can control any food supplies susceptible of adulteration. Alphonse Karr observed, if he poisoned his grocer, he would be liable to be guillotined or transported for life, but if the grocer poisoned him, it was but a penalty of fr. 40. Upon 11 samples of chocolate, 5 were good; 9 of jam, 1 sound; 6 of pepper, 5 bad, due to a weakness for powdered laurel leaf; 20 of milk, 7 satisfactory; 3 of cider, all bad; hams and bacon, hear it O Chicago and Cincinnati, all good, not a trichine was discovered coiled up either in fat or muscle; of wine, we were prepared for the worst; in 123 samples, 3 only were good—the rest were wholly innocent of the juice of the grape, and were the product of the chemist, the druggist, and the pump. 'How did you like your dinner, Monsieur?' said the hostess to Brillat-Savarin, 'Madame,' he replied, 'between your cook and Brinvilliers, there is but the intention.' Can even this excuse be alleged for wine merchants, who send hogsheads 'direct from the growers.'

The Opera shows a loss on the year of some fr. 20,000, so that if M Vaucorbeil be more enterprizing, which he is, than his predecessor Halauzier, he has the balance on the wrong side of the ledger. It must be borne in mind, that the staircase no longer attracts—lovers of music, and that while new operas are brought out, first class artistes are wanting to interpret them. The telephone has been successfully tried to echo the singers on the stage, at a distance of half a mile; henceforth invalids, or persons disenclined to dress for the theatre, can have in their rooms, the choicest 'morceaux' from Meyerbeer or Gounod distilled for their individual use, and can express back their approbation; or, if suffering from gout-tooth, ache, or duns, their displeasure. There is nothing to prevent landlords adding to the bills of houses to let, not only gas and water laid on at every stage, but music also.

Other novelties: Paris had an Alhambra, the 'Folies-Bergère,' where all the prodigies of the universe, and all the silliness that human nature could invent, found a home. The establishment has been changed into a permanent promenade concert, of a respectable type; it is to be seen if the public will support what is good. A kind of temperance Bar has been opened near the opera, apparently for invalids; it might be appropriately called, the Café des Malades, and it has the advantage to be near the Café de la Paix—proof evident that the bellicose spirit, despite Tunisia, is not in the ascendant. The Bar closes at 10 p.m; all kinds of tisanes or herb drinks can be ordered; whey or beef tea, mineral waters and syrups. Dominoes and Chess are at the disposal of clients; the stakes are generally limited to a bottle of soda water or a box of jujubes; the frugal can even wager a stick of liquorice. Any orthodox cough mixture can be had, as well as pills to set livers and stomachs alright, cure consumption, or secure longevity.

Paris of late has been inundated with obscene photos; café waiters disposed of them to sure people, and mysterious men whispered an invitation to buy, as you promenaded on the Boulevards; a detective, made up as a young man from the country, arrested the 'boss,' a Russian, of the nefarious trade, and his 'collaborateurs.' A carter of sand was surprised on emptying his vehicle, to observe a corpse roll out of the sand; it was a drunken laborer who had selected the bottom of the deep cart for a bed when the driver was at breakfast; on returning, the latter commmenced filling the sand from the pit, and never looked inside.

When Henri Heine was seriously ill, the Doctor asked him could he hiss: 'no, Monsieur, not even one of Scribe's plays.'

A Lyons proverb says: 'Live poor, if you wish to die rich.' The late Emile de Girardin's separated wife has compromised her claim against the estate for one million francs—the amount also of legacy duty paid to the State.

A lieutenant in the Turkish army, whose pay is years in arrear, was promoted to the rank of Captain: 'General,' he replied, 'leave me a lieutenant, and give me a tunic instead.'

Howard's
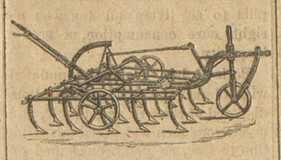
Self-Lifting Wheel Harrows



These Implements will be found very serviceable both as Drag Harrows and as light Scarifiers. They possess an advantage over the ordinary Drag Harrows, in being mounted upon wheels, which whilst diminishing the draught, allows of ready adjustment for harrowing the land deeper or shallower as may be required.

Dr. J. COLLIS BROWNE'S
(Ex Army Medical Staff)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

—o—

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 13th 1864.

The Public, therefore, are cautioned against using any other than Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diptheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitations and Spasms.

CHLORODYNE the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

Extracts from Medical Opinions.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31st, 1864.

From A. Montgomery, Esq. late Inspector of Hospitals, Bombay. 'Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, fater eighteen months' severe suffering, and when other remedies had failed.

Dr. Lowe, Medical Missionary in India, reports (December 1865) that in nearly every case of Cholera in which Dr. J. Collin Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera. 'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

See leading article, *Pharmaceutical Journal*, August 1st, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne, that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION. None genuine without the words 'Dr. J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
